New York, March 1.—Messrs. Sawyer, Wallace & Co. report for the month of February as follows: Our market has been exce dingly dull during the past month. The delay of Congress in settling the tax question, the exhaustion of our stock of desirable Shipping Leaf, and the fear of a general Europeon war, have curtailed purchases by both home trade and foreign buyers; while the unexpected suspension of the old and respectable firm of R. L. Maitland & Co., and the death of our worthy young neighbor, Mr. Tatgenhorst, cast a gloom over the trade and evoked its sincerest sympathy. We note 1,775 hhds, for export, about one-half for Spain, at 364 cents. There has been a daily enquiry for old free dark Leaf for baling, but the stock of this kind seems quite exhausted, and buyers had to take the mearest to it they could get, paying generally 769 cents. A few fat Spinners

believed that convictions could not be had in it and the city would have to pay costs on its prosecutions. With the aid of a friend, of high legal attainments, we propose, next week, to state the exact status of the law on this subject, both State and Municipal, together with decisions under it in the courts. Our annalysis will be given next week.
